DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/17/2006 has been entered. Claims 1, 4, 6, 9, 10, 11, 14, and 18 have been amended, claims 7, 12, 21, and 22 have been canceled, and claim 26 has been added. Claims 1-4, 6, 8-11, 13-20, and 23-26 remain pending and have been fully considered by the examiner.

Response to Amendments/Arguments

2. Applicant's amendment has overcome the objection to the specification. Also, the cancellation of claim 22 has obviated the rejection of that claim under 35 U.S.C. § 112, first paragraph. Therefore, the objection and the rejection are withdrawn.

3. Applicant's arguments, see pages 13 and 15, filed 4/17/2006, with respect to the rejection of independent claims 1, 10, and 14 have been fully considered and are persuasive. The rejections of claims 1-4 and 6-25 have been withdrawn.

Allowable Subject Matter

4. Claims 1-4, 6, 8-11, 13-20, and 23-26 are allowed.

Art Unit: 2192

5. The following is an examiner's statement of reasons for allowance: The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations:

displaying a plurality of runtime information items in a first hyperbolic tree...

generating a second hyperbolic tree...

generating a linking graph as a third hyperbolic tree that links said first hyperbolic tree and said second hyperbolic tree...

at least one of said third nodes ... correspond[ing] with the one first node;

at least another one of the third nodes ... correspond[ing] with the one second node.

Similar limitations are present in each of independent claims 1, 10, and 14. The distinctions provided by the independent claims apply equally to all dependent claims. Thus all pending claims 1-4, 6, 8-11, 13-20, and 23-26 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

U.S. Patent No. 5,590,250 to Lamping et al. discloses the display of data using hyperbolic graphs. See column 2 lines 24-40.

U.S. Patent No. 6,266,805 to Nwana et al. discloses the use of unique identifiers to display joint graphs that are linked by tasks. See column 38 lines 37-53.
